Disclaimer

The information presented in this book is intended for general educational and informational purposes only. It is not a substitute for professional medical advice, diagnosis, or treatment. Anxiety disorders and other mental health conditions vary widely in their nature and severity, and what supports wellness in one individual may not be appropriate or sufficient for another. Readers who are experiencing significant anxiety, depression, or any other mental or physical health concern are strongly encouraged to consult a licensed healthcare provider, psychiatrist, psychologist, or other qualified mental health professional before making changes to any treatment plan or discontinuing any prescribed medication or therapy.

The habits, practices, and strategies described in this book are drawn from current research in psychology, neuroscience, and behavioral science, and are presented in good faith as general wellness tools. However, the author

and publisher make no representations or warranties regarding the completeness, accuracy, or applicability of this information to any specific individual's circumstances. Results will vary from person to person based on a wide range of factors including personal history, biology, environment, and the consistency with which practices are applied. No outcome is guaranteed.

This book does not establish a therapeutic or clinical relationship between the author and the reader. If you are in crisis or believe you may be experiencing a psychiatric emergency, please contact emergency services or a crisis helpline in your area immediately. The content of this book is not designed to address acute mental health emergencies and should not be used as a replacement for urgent professional care.
